8 STATEMENT

9
10 This bill would allow, beginning on August 10, 2009, an owner
11 of property located in the Highlands preservation area to request
12 that the property be excluded from the preservation area under
13 certain circumstances. Specifically, this bill would provide that
14 when an owner of property located within the preservation area
15 offers that property for sale to the State and the State rejects the
16 offer due to the lack of available funding to purchase the property at
17 an amount equal to a fair market value appraisal of the value of the
18 lands as of August 9, 2004 (the day before the date of enactment of
19 the “Highlands Water Protection and Planning Act,” P.L.2004,
20 c.120), that property owner may request that the property be
21 removed from the preservation area. Under the bill, upon written
22 request by the property owner to the Commissioner of
23 Environmental Protection and the Chair of the Highlands Water
24 Protection and Planning Council containing documentation from the
25 State that the State does not have funds available to purchase the
26 property at a price equal to the value of the lands as of August 9,
27 2004, the property would be exempt from the provisions of sections
28 30 through 43 of P.L.2004, c.120 (C.13:20-28 et al.) and would be
29 regulated by the State and the local government unit in the same
30 manner as property located in the planning area.

31 The bill would apply to lands the owners of which at the time of
32 the proposed sale to the State is the same person who owned the
33 lands on the date of enactment of the “Highlands Water Protection
34 and Planning Act” and who has owned the lands continuously since
35 then, or is an immediate family member of that person.

36 The bill would require that the property be excluded from the
37 preservation area and would require this exclusion to be recorded
38 on the deed of the property. The bill would require the
39 Commissioner of Environmental Protection and the Chair of the
40 Highlands Water Protection and Planning Council to take all
41 appropriate action to note the exclusion of such a property on all
42 maps and descriptions of the preservation area prepared or
43 published by the Department of Environmental Protection or the
44 council.
